<td>Centre for Economics studies and Planning (CESP)</td>
<td>Economics-ECOM (216)</td>
<td>Applicants will be tested for their analytical abilities and awareness of national and international economic issues of importance at present and in the recent past. Candidates are expected to be familiar with the content of a standard Economics course taught at the B.A. level. Especially for the benefit of applicants without an undergraduate degree in Economics, an enumeration of the areas to be covered is given below: (a) (i) Micro-economics (Demand Curves, Price and Income Elasticity of Demand, Cost Curves, Equilibrium of Firm under Perfect Competition and Monopoly) (ii) Macroeconomics (National Income Theory of Income Determination, Monetary Policy, Trade and Balance of Payments) (b) Descriptive Statistics (Mean, Median and Mode, Standard Deviation, Correlation Coefficient), Elementary Probability Theory, Mathematics for Economists (Elementary Algebra, Coordinate Geometry and Elementary Calculus) (c) Problems of Economic History, Underdevelopment and Growth: (i) India's Economic Development prior to Independence: India's Planning and Development experience since Independence: Basic indicators of Development. (ii) International Economics Issues of Contemporary Relevance. The entrance exam for M.A. will comprise two parts: Part A will have multiple choice questions and Part B will have short and long problems/questions. Marks obtained in Part A will be used for shortlisting candidates for whom answers for Part B will be evaluated. Final selection will be on the basis of total marks obtained in Part A and Part B.</td>
<td>Paper will be OBJECTIVE &amp; SUBJECTIVE</td>

11 Zakir Husain Centre for Educational Studies (ZHCES)  Educational Studies- EDUP (147)
Zakir Husain Centre for Educational Studies is a multi-disciplinary centre which approaches the field of education from four social science disciplines such as Economics, Sociology, History and Psychology. The students are expected to fit into any one of these disciplinary areas to carry out their research studies. The syllabus for the entrance examination under each of these areas of specialisation is as follows (the list is only indicative, not exhaustive):

A. History of Education
   - Historical method and historiography; Modern Indian history; The educational debates; Woods Despatch; The revolt of 1857; Establishment of modern universities; The Hunter Commission; India’s freedom movement; Imperialism and nationalism; European History; Enlightenment; Reformation; Revolutions; Global History of modernisation; introduction of modern sciences and science education; Education and knowledge systems in pre-colonial India.

B. Sociology of Education
   - Classical and contemporary sociological theory and thinkers; Themes and issues in the Indian society; Rural and urban Sociology; Sociology of backward classes and marginalised; Sociology of education; Sociology of development; Discourses, methodology and methods in sociological research.

C. Psychology of Education
<table>

</table>

| 12 Centre for Studies in Science Policy (CSSP) | Studies in Science Policy - SSPP (148) | Questions in the entrance test will be based on the current affairs on science, technology, innovations and related policy debates. To test the domain knowledge of students, questions based on the various Masters level courses will also be asked. Questions on the various quantitative and qualitative research methods commonly used in social science research will also feature in the entrance test. For more details about our programme and courses, please visit: [http://www.jnu.ac.in/SSS/cssp/pos.htm](http://www.jnu.ac.in/SSS/cssp/pos.htm) |

| 13 Centre for Philosophy (CP) | Philosophy- SPHP (149) | Questions for M.Phil. entrance test will be based on the MA syllabus taught at the Centre for Philosophy, please visit: [http://www.jnu.ac.in/SSS/ophr/mph.htm](http://www.jnu.ac.in/SSS/ophr/mph.htm) |

| 14 Centre for Women Studies (CWS) | Women Studies – WSPP (176) | Syllabus for M.Phil/Ph.D entrance exam, (Centre for Women’s Studies) CWS, SSS, JNU! Since Women’s Studies is interdisciplinary in nature, the written exam for the entrance exam will not only test the candidates to bring their disciplinary and interdisciplinary training in historical, political, economic, sociological, cultural, literary and representational perspectives in the way women, gender, and sexuality have been constituted as objects of study. Students are expected to have a thorough understanding of the relationship between gender and other analytical categories like class, caste, ethnicity, sexuality, community and nationality not only in a national, but also a cross cultural and transnational context. The candidates are expected to be broadly aware of different dimensions of women, gender and sexuality studies in Feminist Theory; Women’s Movements; Gender, Labour and Political Economy; Sexuality Studies; Law; Politics; Development; Globalization and its implications; Religion and Faith Practices; Caste, Ethnicity and Race; Gender and Space; Culture and Modernity; Literature, Art, Performance, and Visuality Studies. Candidates are expected to have knowledge of feminist methodology, especially qualitative research methods such as ethnography, discourse analysis, oral history, archival research, and literary methods, but not just limited to these. |

| 15 Centre for the Study of Discrimination and Exclusion (CSDE) | Discrimination and Exclusion Studies- SDEP (152) | The written examination will deal with topics which are covered in any standard Masters level course pertaining to History, Anthropology, Economics, Political Science and Sociology. In addition, the candidates are expected to have comprehensive understanding on the various dimensions of discrimination and exclusion faced by Scheduled Castes (SC), Scheduled Tribes (ST) and various Minority groups in India. The interpretation of these societal dimensions can only be understood through a proper knowledge of research methodology. The definition of research methodology in itself is a difficult task, divided in terms of approaches ranging from the qualitative to quantitative. In addition to research methods the candidate acquainted in their respective subject at the Master level, is also expected to be familiar with the methods and measurement of Discrimination and exclusion. The candidates are expected to be aware of analysis based on large datasets published periodically by the Government and non-governmental agencies. These would include, but not limited to, Decennial Census reports, National Sample Survey Organisation reports (NSSO), National Family and Health Surveys (NFHS), National Crime Records Bureau reports (NCRB) and other alternative reports covering issues of discrimination and exclusion like Sachar Committee Report, Indian Exclusion reports, International Organisational reports like UN, ILO etc. Further the candidates should be aware of reports published by National Commission for Scheduled Castes (NCCSC), National Commission for Scheduled Tribes (NCST), National Commission for Backward Classes (NCBC), National Human Rights Commission (NHRC). The candidates should have an in depth understanding of various facets of the Indian Constitution, Governmental policies for inclusion and developmental schemes addressing the issues of SCs, STs and Minority groups. |

| 16 Centre for Media Studies (CMS) | Media Studies- CMSP (173) | Envisaged primarily as a centre for research and academic study, the syllabus for the Entrance Examination will cover broader fields of media studies, which include: Histories of media, technologies and cultural industries, Media and the nature of connectivities, Visual culture, Theory and methods in media studies. |

<p>| 17 North East India Studies Programme (NEISP) | North-East India Studies- NEISP (175) | • Understanding North East India and its neighbouring areas: history, culture, society, politics, economic development, ecology and contemporary problems. • Research Methodology: Various interdisciplinary methods such as approaches to social sciences, qualitative, quantitative, interpretative and historical methods. • In addition to the above, the syllabus covers themes pertaining to North East India, such as religion and society, tribes and ethnicity, government and politics, economic development, frontiers and borders, and cultural histories. |</p>

**A. History of Public Health**
1. History of different systems of Medicine
2. Primary Health Care

**B. Concepts in Public Health**
1. Definition of health: appreciation of health as a relative concept; determinants of health.
2. Characteristics of agent, host and environmental factors in health and disease and the multifactorial etiology of disease.
3. Understanding of various levels of prevention with appropriate examples.
4. Indices used in measurement of health.
5. Health situation in India: demography, mortality and morbidity profile and existing health facilities in health services.

**C. Epidemiology**
1. Use of epidemiological tools to make a community diagnosis of the health situation in order to formulate appropriate intervention measures.
2. Epidemiology - definition, concept and role in health and disease.
3. Definition of the terms used in describing disease transmission and control.
5. Modes of transmission and measures for prevention and control of communicable and non-communicable disease.
6. Principal sources of epidemiological data.
7. Definition, calculation and interpretation of the measures of frequency of diseases and mortality.
8. Common sampling techniques, simple statistical methods for the analysis, interpretation and presentation of data frequency distribution, measures of central tendency, measures of variability, statistical tests of significance and their application.
9. Need and uses of screening tests.
10. Accuracy and clinical value of diagnostic and screening tests (sensitivity, specificity, & predictive values).
11. Epidemiology of communicable and non-communicable diseases of public health importance and their control.
12. Epidemiological basis of national health programmes.
13. Awareness of programmes for control of non-communicable diseases.
   (a) Planning and investigation of an epidemic of communicable diseases in a community setting.
   (b) Institution of control measures and evaluation of the effectiveness of these measures.
14. Various types of epidemiological study designs.
15. The derivation of normal values and the criteria for intervention in case of abnormal values.
16. Planning an intervention programme with community participation based on the community diagnosis.
17. Applications of computers in epidemiology.
18. Critical evaluation of published research.

**D. Epidemiology of Specific Diseases**
1. Extent of the problem, epidemiology and natural history of the disease.
2. Relative public health importance of a particular disease in a given area.
3. Influence of social, cultural and ecological factors on the epidemiology of the disease.
4. Control of communicable and non-communicable disease by:
   a. Diagnosing and treating a case and in doing so demonstrate skills in:
      (i) Clinical methods
      (ii) Use of essential laboratory techniques
      (iii) Selection of appropriate treatment regimes.
   b. Principles of planning, implementing and evaluating control measures for the diseases at the community level bearing in mind the relative importance of the disease.
   c. Institution of measures for the education of individuals and communities.
   7. National Health Programmes.

**E. Biostatistics**
a. Collection, classification and presentation of statistical data.
b. Analysis and interpretation of data.
c. Obtaining information, computing indices (rates and ratio) and making comparisons.
d. Apply statistical methods in designing of studies.
e. Choosing of appropriate sampling methods and sample size.
f. Applying suitable test of significance
g. Use of statistical tables.

**F. Entomology**
1. Role of vectors in the causation of diseases.
2. Mode of transmission of vector borne diseases.
3. Methods of vector control with advantages and limitations of each.

**G. Health planning and Public Health Administration**
H. Health Management
I. Health economics
J. Nutrition
   1. Role of nutrition in Health and Disease.
   2. Nutritional problems of the country.
   3. Common sources of various nutrients and special nutritional requirement according to age, sex, activity, physiological conditions.
   4. Nutritional assessment of individual, families and the community by selecting and using appropriate methods such as: anthropometry, clinical, dietary, laboratory techniques.
   5. Compare recommended allowances of individual and families with actual intake.
   8. National programmes in nutrition and their evaluation.
K. Environmental Sanitation
   2. Awareness of the concept of safe and wholesome water.
   3. Awareness of the requirements of sanitary sources of water.
   4. Understanding the methods of purification of
   5. Various biological standards.
   7. Physical, chemical standards; tests for assessing quality of water.
   8. Disposal of solid waste, liquid wastes both in the context of urban and rural conditions in the community.
   10. Sources, health hazards and control of environmental pollution.
   11. Influence of physical factors – like heat, humidity, cold, radiation and noise – on the health of the individual and community.
   12. Standards of housing and the effect of poor housing on health.
L. Demography and Family Planning
   1. Definition of demography and its relation to Community Health.
   2. Stages of the demographic cycle and their impact on population.
   4. Reasons for rapid population growth in the world, especially in India.
   5. Need for population control measures and the National Population Policy.
   6. Identify and describe the different family planning methods and their advantages and shortcomings.
   7. Principles of Counselling; Client satisfaction.
   9. Organisational, technical and operational aspects of the National Family Welfare Programme and participation in the implementation of the Programme. Target Free Approach.
   10. MTP and infertilt services.
M. Mental Health
   1. Public health importance of mental health
   2. Public health approach to mental health problems: types, diagnosis and management of mental health problems in the community.
N. Application of Social Sciences in Health
O. Impact of urbanisation on health and disease.
P. School Health
Q. Urban health
We insist that the student/candidates should have exposure, understanding and knowledge in wide ranging issues related to adult, continuing education and extension. The main thrust areas include ‘literacy studies’ (e.g., basic literacy, adult literacy, digital literacy, financial literacy, consumer literacy, legal literacy, health family, media, citizenship literacy etc.), adult, lifelong education, vocational/skill education, sustainable livelihood education, entrepreneurship education and other related continuing education in India and abroad. Moreover, GAE focuses on problems of contemporary youth & their lifestyles; the impact of globalization and market practices on the local communities and society with special emphasis on consumer rights, movements and awareness. We try to enrol students who have interest do research in areas of formal/non-formal education, policy studies and practice in all these areas. GAE makes special efforts in enhancing learning, and improving professionalism among the students in social and education sectors to play constructive roles in nation-building.

The written test is intended to evaluate the candidate’s general awareness in the following areas. The Ph.D programme focuses on interdisciplinary research on Indian informal sector and labour scenario. The programme encourages to work on themes such as -Political Economy of State, Development and Underdevelopment in the contemporary world, Labour History, Globalization and the changing forms of Labour, Global Production Systems, Informalisation in various sectors, Labour Market, Forms of Employment, Poverty, Migration, Urbanisation, Labour Rights and Regulation, Workers’ Organizations and Politics, Trade Unions, Resistance, Peasant Production, Non-farm Economy, Agrarian Change and Rural Development, Political Economy of Care, Discrimination on the basis of Caste, Gender and Community, Common Property Resources, Public Policies in the Unorganised Sector, and Sustainable Development. The objective of the programme is to enable students to understand the linkages between the formal and the informal sectors and between theory and empirical investigations in research work.

**Pattern of Examination**

Paper will be SUBJECTIVE
regression analysis, geographical information system, Remote sensing, and GPS; Morphometric techniques in areal and linear analysis, hydrography and runoff estimation, evapotranspiration, methods of soil analysis, ground water mapping and estimation, RS in LU/LC and biodiversity mapping, magnitude-frequency classification of natural disasters, methods of graphical representation of economic loss of disasters, age estimation of landforms. Methods of landscape surveying and mapping; socio-economic field survey methods.

(b) i. Physical Geography: Geomorphology, Oceanography, climatology, climate change, Hydrology, Biogeography, Ecosystems, Natural Resources and Natural Disasters (with special reference to India)
ii. Human Geography: Population distributed and growth; human settlements, urbanization, migration rural and agricultural geography; Spatial structure and temporal trends of economic activity; Social groups and communities, tourism; (with special reference to India)
iv. Regional Development: Concepts, strategies of regional development regional imbalances and levels of development in India; inclusive exclusions and exclusive inclusions, Globalization, natural resources and changing spatial division of labour.

(ii) Regional Development: Population Studies (Code: POP)
(C) Research Methodology: Basic and advanced statistics. Quantitative methods in population analysis, basic demographic data in India, methods of demographic data analysis, population survey (primary and secondary) methodologies and designs.
(D) Nature and scope of population studies; sources of demographic data; Global and regional population trends, growth, distribution, and density; population composition; components of population dynamics namely fertility, mortality and migration; Population growth in relation to economic and social development. India’s population policy and family planning programme, population theories, Demographic methods (may need the use of scientific calculator), Population, environment and development, urbanization, Human habitat, human ecology, Food security, Programs related to Population Health and Development, gender and population.

(iii) Regional Development: Economics (Code: ECNH)
(C) Research Methodology: Basic Statistics, Quantitative methods in Economics, Sources of Data on the Indian Economy, Economic theory and development theory (at the Master level); basic issues in Indian economy around themes like poverty, inequality, employment, banking, public finance, industry, agriculture, trade etc; India’s development and policy choices; made over the years to address those challenges.

10 Economics- ECNH (872)

Basic concepts in Social Sciences and its relevance to public Health
Social Stratification -Caste, Class, Gender, Religion, Ethnicity Exclusion, discrimination, marginalization, humiliation and stigma, Diversity, Social cohesion—comparison with other societies
Culture- Norms, values, role and status, culture shock, taboos, ethnocentrism, cultural relativism.
Characteristics of Rural and Urban Society - rural society; agrarian class structure, urban, urbanism and urbanization
Sanskritisation
Social Capital and Cultural Capital
Poverty
Inequality
Globalization, liberalization, privatization
Motivation
Attitude, Perception and Behavior
Socialisation
Power
Conflict
Civil Rights, Democratic Rights and Human Rights
Social change
Social movements and civil society
Understanding Interconnections Between Economy, Polity And Society - Nature of State in India, Welfare state and public health, State and public policy
Current Debates in Health

2. Application of Social Sciences to Health
Social Determinants of Health
Development and Health - Primary Health Care Approach & Selective Health Care Approach
Social inequalities and marginalisation in health
Climate change and its impact on health
Population and development
Social exclusion, discrimination and health
Importance of large data sets for public health
Health promotion and illness prevention
Mental Health and Disability
Medical Pluralism
Accessibility, Availability and Affordability of Health Care
Universal Health Care
Recent social issues and their implications for health

3. Research Methodology
Qualitative methods in Social Sciences - observation, life history, case study, narratives, ethnography
Quantitative methods in Social Sciences – survey methods, research instruments
Importance of Qualitative and quantitative research methods used in public health
Mixed methods
Ethics in Research

| 14 | Centre for Studies in Science Policy (CSSP) | Studies in Science Policy- SSPH (877) | Question in the entrance test will be based on the current affairs on science, technology, innovations and related policy debates. To test the domain knowledge of students, questions based on the various Masters level courses will also be asked. Questions on the various quantitative and qualitative research methods commonly used in social science research will also feature in the entrance test. For more details about our programme and courses, please visit: [http://www.jnu.ac.in/SSS/cssppos.htm](http://www.jnu.ac.in/SSS/cssppos.htm)

| 15 | Centre for Philosophy (CP) | Philosophy- SPHH (878) | Questions for M.Phil. Entrance test will be based on the MA syllabus taught at the Centre for Philosophy. please visit: [http://www.jnu.ac.in/SSS/cop-mphil](http://www.jnu.ac.in/SSS/cop-mphil) |
### Centre for Women Studies (CWS)  
**Women Studies-WSPH (879)**

<table>
<thead>
<tr>
<th>Syllabus for M.Phil/Ph.D entrance exam, (Centre for Women’s Studies) CWS, SSS, JNU</th>
</tr>
</thead>
<tbody>
<tr>
<td>Since Women’s Studies is interdisciplinary in nature, the written exam for the entrance exam will expect candidates to bring their disciplinary and interdisciplinary training in historical, political, economic, sociological, cultural, literary and representational perspectives in the way women, gender, and sexuality have been constituted as objects of study. Students are expected to have a thorough understanding of the relationship between gender and other analytical categories like class, caste, ethnicity, sexuality, community and nationality not only in a national, but also a cross-cultural and transnational context. The candidates are expected to be broadly aware of different dimensions of women, gender and sexuality studies in Feminist Theory, Women’s Movements, Gender, Labour and Political Economy; Sexuality Studies; Law; Politics; Development; Globalization and its implications; Religion and Faith Practices; Caste, Ethnicity and Race; Gender and Space; Culture and Modernity; Literature, Art and Performance, and Visualizing Studies.</td>
</tr>
<tr>
<td>Candidates are expected to have knowledge of feminist methodology, especially qualitative research methods such as ethnography, discourse analysis, oral history, archival research, and literary methods, but not just limited to these.</td>
</tr>
</tbody>
</table>

### Centre for the Study of Discrimination and Exclusion (CSDE)  
**Discrimination and Exclusion Studies-SDEH (880)**

| The written examination will deal with topics which are covered in any standard Masters level course pertaining to History, Anthropology, Economics, Political Science and Sociology. In addition, the candidates are expected to have comprehensive understanding on the various dimensions of discrimination and exclusion faced by Scheduled Castes (SC), Scheduled Tribes (ST) and various Minority groups in India. The interpretation of these societal dimensions can only be understood through a proper knowledge of research methodology. The definition of research methodology in itself is a difficult task, divided in terms of approaches ranging from the qualitative to quantitative. In addition to research methods the candidate acquainted in their respective subject at the Master level, is also expected to be familiar with the methods and measurement of Discrimination and exclusion. |
| The candidates are expected to be aware of analysis based on large datasets published periodically by the Government and non-governmental agencies. These would include, but not limited to, Decennial Census reports, National Sample Survey Organisation reports (NSSO), National Family and Health Surveys (NFHS), National Crime Records Bureau reports (NCRB) and other alternative reports covering issues of discrimination and exclusion like Sachar Committee Report, Indian Exclusion reports, International Organisational reports like UN, ILO etc. Further the candidates should be aware of reports published by National Commission for Scheduled Castes (NCSC), National Commission for Scheduled Tribes (NCST), National Commission for Backward Classes (NCBC), National Human Rights Commission (NHRC). |
| The candidates should have an in depth understanding of various facets of the Indian Constitution, Governmental policies for inclusion and developmental schemes addressing the issues of SCs, STs and Minority groups. |

### Centre for Media Studies (CMS)  
**Media Studies-CMSH (881)**

| Envisaged primarily as a centre for research and academic study, the syllabus for the Entrance Examination will cover broader fields of media studies, which include: Histories of media, Political economy of Media, Media and issues of language, Media, democracy, and dimensions of rights and justice, Violence and media, Media, technologies and cultural industries, Media and the nature of connectivities, Visual culture, Theories and methods in media studies. |

### North East India Studies Programme (NEISP)  
**North East India Studies-NESH (882)**

- Understanding North East India and its neighbouring areas: history, culture, society, politics, economic development, ecology and contemporary policies
- Research Methodology: Various interdisciplinary methods such as approaches to social sciences, qualitative, quantitative, interpretative and historical methods
- In addition to the above, the syllabus covers themes pertaining to North East India, such as religion and society, tribes and ethnicity, government and politics, economic development, frontiers and borderlands, and cultural histories.
